

GME Home Page

The GME Home Page has three main elements: the navigation bar, announcements, and a training schedule. The navigation bar allows for accessing different components of GME. Announcements contain important information from Grants Management. The training schedule lists upcoming training sessions and registration information.

1. **Grants Management Resource Library** provides information on the grants' life cycle and GME processes. Categorized by GME function, you will find access to in-depth handbooks, infographics, and webinar recordings.

Need to understand validations? Go to the Validation Messages Microlearning link under GME Navigation and this 6-minute video will provide you an overview. Similar type of information is available under each topic area.

*TIP – If you see “Public Access” instead of your name – you are not signed in. If you are not signed in, you will not have access to your specific funding applications.

2. **Announcements** are emailed monthly to all GME users. They are also posted on the GME home page and are a quick reference when you have any questions about what items are coming due in GME.

3. **Training Schedule** lists ongoing, live training sessions along with the registration link. Training topics are coordinated with the functions due in GME throughout the grants' life cycle. Most training topics are offered annually, and are updated to reflect any changes from year to year.
